... • Estrella como o yo , estrella del horizonte, no te quiere volver a ver. Porque en el océano sin luna donde se ahoga, el cielo no tiene serias distancias. All the articles are presented with an introduction, the obituaries, and the funeral notices. The Belgian Flemish writer Estrumsa de Wayenburg (1749–1815) was the first to use the term "omakaité". He published the novel Omakaité in Brussels in 1777. According to Patricia Terry, Estrumsa's work was influential in the region, as his novel was the first to bring Creole culture to the attention of the Flemish population. Chesneau's version Some time after 1777, Estrumsa de Wayenburg, a Belgian who lived in France, wrote a French version, entitled Omakaité, which was translated into the French of Dominique-Jean Chesneau, with a preface by Pierre Abelin. Chesneau's version is sometimes presented as the first publication of Omakaité. According to Terry, it was written before the 1777 publication of Estrumsa's original work, and therefore the translation was inspired by the latter. In any case, the version of Chesneau and Abelin seems to be more popular than the original version of Estrumsa, especially in France, and so it has been translated into English. Abelin, in his preface to the novel, tried to present Creole culture and its values as something common for all the French-speaking population. In this, Chesneau attempted to propagate French-Creole culture, which he thought would contribute to the unity of French-speaking people. He did not present Creole culture as an individual entity. He also tried to correct the errors and the singularities of language of the Creole culture of the Carabelles of Guyana, using the term "Banda".
